4+ YEARS IT SUPPORT	200–300+ WORKSTATIONS SUPPORTED	40+ TICKETS RESOLVED / DAY	24 h ON-CALL ROTATIONS
------------------------	------------------------------------	-------------------------------	---------------------------

01 PROFILE

IT Support Engineer delivering **high-volume remote and onsite support** across multiple client environments. Strong in technical investigation, user support and practical resolution of hardware, software, connectivity and system issues. Experienced with **Active Directory, Microsoft 365, VPNs, proxy/PAC configuration**, workstation deployment and remote support tooling — with a specialism in **PACS, RIS and DICOM environments** in the healthcare sector.

02 EXPERIENCE

IT Support Engineer Fulloutput AUG 2024 – PRESENT

CLIENTS: SCP RADIOLOGY · BERGMAN & ROSS RADIOLOGY · WINELANDS RADIOLOGY

- + Day-to-day remote and onsite support across multiple healthcare clients — **200–300+ computers** across numerous sites.
- + Resolve **40+ Freshdesk tickets per day** from doctors, receptionists and radiographers: hardware, software, access, connectivity and workstation issues.
- + Remote support via TeamViewer and onsite work across client branches — investigating issues through to resolution and coordinating with vendors or senior technical staff.
- + Support **PACS / RIS / DICOM** environments: DICOM destinations, AE titles and IP connectivity; failed image transfers; modality-to-PACS communication; stuck studies.
- + Support PACS–RIS–reporting integrations, including **reprocessing HL7 messages** when reports fail to transfer or display.
- + Active Directory administration: account creation, password resets, unlocks, disabling, group membership, computer management and domain login troubleshooting.
- + Microsoft 365 account and access support; **VPN setup and troubleshooting**; proxy and PAC-file configuration.
- + Deploy workstations end-to-end: Windows install, drivers, applications, domain join, printers/scanners, BIOS troubleshooting, hardware upgrades.
- + Monitor client sites with **PRTG** — network connectivity, routers and server-room temperature sensors — flagging outages and infrastructure risks.
- + Scheduled **24-hour after-hours on-call rotations** for key healthcare clients.

IT Support Contractor Remote Insurance Team AUG 2026

- + Remote IT support for staff serving US-based insurance clients — hardware, software, email, network and access issues.
- + Diagnosed and resolved VPN connections, proxy access and Microsoft 365 account/email issues via AnyDesk and TeamViewer.
- + Installed and configured client-specific software; managed support requests; escalated to external vendors and client IT teams.

Virtual Media Specialist Metisware NOV 2021 – SEP 2024

- + Technical support for corporate events, conferences and virtual meetings — AV, video conferencing and live-streaming setups.
- + Worked with OBS, Zoom, cameras, microphones, event PCs and display equipment; troubleshoot live during events. Managed streaming and recording setups including live YouTube broadcasts, with onsite technical support.
